

Dear Athletic Director/Coach:

Congratulations to you and your athletes for qualifying for the 2023 State Volleyball Tournament in Coralville. The University of Iowa Sports Medicine Department will be providing the Athletic Training services for the tournament. All athletic trainers will be easily accessible throughout the tournament. Please inform your assistant coaches, players, parents and potentially your own athletic trainer of our presence and the services we will provide.

The primary athletic training room will be in the UI Volleyball Athletic Training Room which is in the area between the practice courts in Green State Fieldhouse and the main courts in Xstream Arena. There will be signs posted at or near the specific location in the venue. Our certified athletic trainers will be available 1 hour prior to the first match and throughout each day of competition for most pre/post-match needs including taping, ice, injury assessment, wound care, etc. The athletic training staff will not provide modality treatments including hot packs, ultrasound, or electrical muscle stimulation. No form of massage or ice bath will be provided. If your athlete(s) use any form of specialty tape, like "K-tape", the athletic training staff will not provide this tape. We will be happy to assist in applying it in a similar manner to what your athlete is used to.

While the Iowa Girls High School Athletic Union designated tournament athletic trainers will work with a team's sports medicine professional, IGHSAU designated certified athletic trainers shall have final authority to determine if an athlete who is exhibiting signs, symptoms, and behaviors consistent with a concussion shall return to competition at any time during the tournament.

If you have any questions or concerns, please feel free to contact us at any time. University of Iowa Sports Medicine is proud to provide Certified Athletic Trainers to the 2023 State Volleyball Tournament. Thank you for your cooperation and best of luck during your time in Coralville.

Sincerely,

Matt Doyle, MS, LAT
